Hi David,

Ah yes, ok so;

- Mature specimen, with a typical form for the species (good).
- Can be clearly seen from highway, important feature in the landscape (because of the size and therefore presence)
- Major unions all looked in good condition, all major limbs also looked in good order.
- No visual evidence of serious areas of decay.
- No signs of pathogenic presence.
- Although planted near boundary wall, the basal mass shows no visual evidence of impacts on the wall (lifting, cracking etc.)
- No signs to indicate this tree will not reach its full life expectancy

Please let me know if you need anymore!

Kind regards

Dafydd

It is the Turkey Oak Tree at The Red Cottage, The Street, Walberton. I have attached your TEMPO and map. Not sure if I have a photograph.

Hi David,

Sorry can't find information regarding WAS/70/14/TC. Could you remind me of the site/tree in question?

Kind regards

Dafydd

Hi Dafydd,

Have you provided me with a report on the above previously? I have the TEMPO and Map but no report - is it possible you could throw together something very brief for inclusion with my write up. The TPO process was commenced today.

Regards,
David
