Dear Anita,

I did receive the original planning consultation. I have looked at the revised documentation and I discussed this case with Fiona. I have concerns over their revised proposal with the building of a noise boundary around the site to help mitigate the noise from the plant machinery and question their Db level reductions from having dense vegetation around the site perimeter. I suggest on having an acoustic housing material around the conditioner units to mitigate the noise generated, to have them properly boxed in would aid compliance with condition No (3).

Kind Regards
Nick Howard

Hi Nick,

I am not sure if the original planning consultation has been sent to you or another EHO. I have received the attached revised details. Can you or a colleague advise if these details are now acceptable?

Thanks
Anita

Dear Anita,

We were hoping to submit the noise report last Friday, but it will now be this Wednesday.
