Importance: High

Dear Sirs

I wish to totally object to this planning application in the fields off Wandleys Lane.

Of all the countryside lanes local to here this is positively NOT the place to build homes.

Wandleys Lane is a winding not-over-wide typically countryside English lane which does not lend itself in any way to having many homes and therefore many people and cars using it on multiple daily times. It will also add to the increasing traffic already using West Walberton Lane (as a rat run).

There are other local roads which are wider and slightly lit and which are used as rat runs.

I believe you think you can widen the road, add pavement and even lighting – HOW AND WHERE??

It is not wide enough to be widened or to sustain this development.

I use it on a daily basis to escape the Fontwell roundabout which can be positively dangerous.

Even in Wandleys Lane traffic has to give way and pull in and if horses are going along – or the bin lorry – it can be an interesting journey.

This is contrary to the Neighbourhood Plan and I support the Parish Council's representation which has been submitted.

For goodness sake use common sense and leave this area alone!

Yours faithfully
Mrs Bailey
