I strongly object to the planning application put forward by Welbeck for housing off Wandleys Lane. There are already a number of new housing developments happening in the near vicinity, and the local infrastructure is already stretched at the seams. Along with the fact that this area is of importance to local wildlife, and currently one of the few open areas left.

The traffic that will then use Wandleys Lane will increase dramatically, and the road has neither the ease of access to the A27 / Fontwell Avenue as it is, let alone be able to handle the amount of extra traffic that would be generated.

There are already enough new developments in And around Walberton, please keep further ones small, and strategically placed.

Thank you

Ellen Bruggen
