I wish to register my strong objections to the proposed Wandleys Lane development. Firstly it is contrary to the Neighbourhood Plan. It will greatly harm the rural character of the area, will increase traffic particularly in the narrow lanes around the site, which are not designed for heavy traffic. The increased traffic will also adversely affect local people who like to walk, cycle and horse ride in the area. The village of Walberton is very busy now, but with these extra houses it will be ruined. The local schools and doctors surgeries will be unable to cope with the increase in demand.

Please reconsider this development. There will be far too many houses in one small area.
