Subject: Wandley's Lane development

Dear Sir or Madam,

re WA/73/17/OUT

I wish to register my objection to the proposed building of a large number of homes off Wandley's Lane.

This proposal is contrary to the neighbourhood plan.

I am particularly concerned about the resulting escalation of traffic along West Walberton Lane. Already it is busy and extremely dangerous for pedestrians and cyclists. Moreover, even with the current level of traffic, West Walberton Lane suffers from a large number of potholes. I am also alarmed at the resultant increase this building would have on the level of traffic through the village of Walberton, with its increase in levels of air and sound pollution.

I think this proposed development is too large for a small village to accommodate.

I fully support the parish council's representation which has recently been submitted.

Yours faithfully,

Veronica Castle
Walberton Resident
