Environmental Health Comments;

Please apply condition ENV 5 only, as the site appears to have no previous contaminative uses

ENV 5 Unsuspected contamination

Environmental Health position

We consider that planning permission should only be granted to the proposed development as submitted if the following planning condition is imposed as set out below. Without this condition, the proposed development on this site poses an unacceptable risk to the environment and we would wish to object to the application.

Condition: If, during development, contamination not previously identified is found to be present at the site then no further development (unless otherwise agreed in writing with the Local Planning Authority) shall be carried out until the developer has submitted, and obtained written approval from the Local Planning Authority for, an amendment to the remediation strategy detailing how this unsuspected contamination shall be dealt with.

Reason

To ensure that the development complies with approved details in the interests of protection of the environment and prevention of harm to human health in accordance with policies GEN7 and GEN31 of the Arun District Local

Thanks

Hi,

Can you comment on this one? It is directly adjacent to Wandley's Copse which I think was one of the CL sites.

Thanks.
