Hello Richard.

Apologies for the delay in response.

I needed to get a plan agreed with Clare Potts with regard to how health treats the Westergate etc area developments – to which we agreed a sensible split of how funds should be used to facilitate the health strategic plan.

Please find attached the response and how I've segmented the costs between the strategic plan elements.

I am capturing this on a list and will meet with Clare / David Innes (and any other planning team members) to make sure all is practical and sensible.

Kind Regards,

Simon

Thanks Richard.

I'll have to pick this up next week and I have marked out a Wed pm slot to run through it. I'll get the response started, if not completed, that Wednesday.

Thanks for the update.

Simon

Thanks for the quick response Simon. Understand and sympathise with the workload pressure.

This is a large planning application and is not an allocation site which you refer to as strategic.

Hello Richard.

Yes. I will be responding. We only have myself as the lead for s106 replies as part of my remit.

Apologies, I was waiting for a meeting with Claire Potts, which we had on the 23rd of November to pull together a few responses. The reason being to pick up any new info and the matching of strategic sites and 'large sites' – with regard to infrastructure strategy.

I am about 8 cases behind now...

Could I just ask if this is part of either:

- Strategic builds
- Or
- Large planning applications

The distinction is key with regard to the answer – ie will a contribution be needed for local GP surgery infrastructure works or toward a more strategic build.

Thank you so much for chasing Richard.

Dear Mr Clavell-Bate,

I am the case officer dealing with the above outline planning application for up to 157 dwellings.

We consulted the NHS West Sussex Coastal Commissioning group on 18 October 2017 but have yet to have a response. I need to update the Agent on the application as to the position regarding NHS contributions. Will you or someone in your team be commenting?

Regards,

Richard Temple | Senior Planning Officer, Directorate of Place, Arun District Council | Location: First Floor, Arun Civic Centre, Maltravers Road, Littlehampton, BN17 5LF

Coastal West Sussex Clinical Commissioning Group

Simon Clavell-Bate
Head of Finance
CWS CCG

Friday 22nd December, 2017.

Specific application note

(See Appendix 1)

Reference, WA/73/17/OUT.

Status, Undecided. Proposal, Outline Planning Application with some matters reserved for up to 157 No. residential dwellings including 30% affordable. This application is a Departure from the Development Plan. Location, Land East of Wandleys Lane and West of West Walberton Lane Fontwell

Coastal West Sussex Clinical Commissioning Group (CWS CCG) has been working with Local Authorities and Developers for many years and has an established clear tariff contribution pro-forma for Developer Contributions.

The pro forma has been developed in conjunction with the District Valuer (professional & independent) and is regularly updated.

The CCG has also reviewed other government / centrally provided services (such as the Fire and Rescue services, libraries) with relation to developer contributions to infrastructure that directly relate to housing / infrastructure development, in order to be fair and reasonable. The important factor is to have services in place for population needs.

Additional population generated by this development will place an increased demand on the existing health care that provides services to the area. In the absence of developer contributions towards the provision of additional infrastructure, CWS CCG would be unable to retain the high level of health care that is provided in the area and would therefore have to OBJECT to the development proposal.

1. Financial arrangements

All new housing / infrastructure has a direct impact on health care in the region. All residents will register with a GP when moving to a new home.

At present, Primary Care services are run by General Practitioners (GP's) as a partnership. These are stand-alone businesses that are funded materially from CCG's (Clinical Commissioning Groups), who do so as Co-Commissioner partners of NHS England.

Historically and current state is that the premises that GP's run services from are based on old established 'houses' linked together (modified) with some aging built for purpose premises.

The CCG does not have direct capital funding for Primary Care services. There are limited and scarce funds available that have to be applied for at a regional / national level.

Criteria such as new developments and developer contributions are a key factor in decision making, as the funding available needs to be directed to area of need (and funding is scarce). The key question from central NHS funds is "what funding has been secured from housing development" when applying for any central capital investment.

The funding for new builds or Premises extensions/infrastructure comes from materially 2 sources, linked on the whole to new housing development growth.

- i. S.106 funds (or CIL equivalent)
- ii. CCG revenue allocation

Revenue funds from the NHS are used to run and maintain services that continually have a higher demand than the resource available. Arun has a high frail and aged population with associated health needs. Therefore there is a high demand factor for health and a need Health funds are provided and used for the existing population of the area and thus housing growth infrastructure costs are sourced and necessary from housing developments. Health will continue to fund the GP (Primary Care) running costs associated with population growth, but will seek funding where new housing is planned to support infrastructure need. This will allow residents to register with a GP.

Revenue funds for Health organisations are limited and challenging currently. Many NHS bodies did not meet the requirement to break even financially, and in 2016/17 Coastal West Sussex CCG was one of those bodies. As such, funding for the foreseeable future will be exceedingly limited, as there remains a requirement to payback any financial gaps and at the same time there is a requirement still to make year on year efficiency savings (cash releasing).

The funding will be a contribution to "**The Croft GP surgery**" for the infrastructure needs of managing "Treatment rooms' project" & a contribution to the "Strategic Hub treatment rooms". The costing of the project is in section 4.

2. Assessment & request

Coastal West Sussex CCG has taken an assessment of the implications of growth and the delivery of housing upon the health need of the Arun District, and in particular the major settlements in the district where new development is being directed towards. We have established that in order to maintain the current level of healthcare developer contributions towards the provision of capital infrastructure will be required. This information is disclosed to secure essential developer contributions and acknowledge as a fundamental requirement to the sound planning of the District.

The additional population generated by the development will inevitably place additional demand upon the existing level of health provision in the area. In the absence of developer contributions towards the provision of additional health infrastructure the additional strain placed on health resources would have a significant detrimental impact on District wide health provision.

Health utilises the legal advice outcomes and industry professional inputs from other public funded area, such as the Police service. With the direct impact of new housing and house growth plans on registered patients, the submission that follows captures the necessary, directly related and fair/reasonable contributions required that relate to the associated house build volumes. The tried and tested formula used has been in use for many years and is annually reviewed.

3. Current Healthcare in Arun

Primary Care services in Arun are provided by 15 GP businesses (GP practices), funded on the main from NHS funds for providing Primary health care.

Each practice site is either owned outright (entirely owned, mortgaged or other financial arrangement) or leased from a landlord.

Some sites are purpose built in prior decades, or are run from converted houses (as per the original NHS start point for General Practice).

Patient demand is high in the Arun area and the proportion of patients over the age of 65 was high, at 27%.

GP Practice	List Size Jan 2017	List Size Jan 2016	Over 65's Jan 2016	% Over 65's
Arundel	6,404	6,375	1,957	31%
Croft	11,345	11,152	2,532	22%
Avisford	10,503	10,278	3,114	30%
Bersted Green	12,936	12,657	2,464	19%
West Meads	7,565	7,578	2,257	30%
Maywood	13,746	13,463	2,755	20%
Grove House	11,858	11,898	4,845	41%
Bognor	9,192	8,992	1,716	19%
Flansham Park	13,220	13,010	3,894	29%
Arun MG (<i>now closed</i>)	0	7,165		
Park	9,770	7,744	2,220	23%
Fitzalan	16,638	13,921	3,357	20%
Willow Green	9,729	8,891	3,451	35%
Coppice	10,304	9,612	3,071	30%
Westcourt	12,544	11,892	3,909	31%
Lawns	2,612	2,098	956	37%

Total	158,366	156,726	42,498	27%
--------------	----------------	----------------	---------------	------------

England Ave = 17.7%

The current estate for Arun is of an older nature and is more than 25% below expected size requirements for the population size.

The impact of an aging population (Arun at 27% and England average of 17.7% ONS data), cramped premises, short supply of any medical/nursing staff and increase in demand for GP services puts a very high strain on GP resources.

The effect of this has already been found in Arun with a GP service having closed in 2016 and the patients having to re-register and be cared for by other GP practices.

The proposed development will need to have Primary Care infrastructure in place in order to care for the population increase.

This contribution requested will be for the necessary infrastructure to cater for the site development at the most local GP service site(s) and encompass all the necessary components of patient need, whether at the GP practice or neighbouring service area.

5. Compliance with National Policy and CIL regulations

i. Necessary to make the proposed development in planning terms

Health provision and to a large extent access to Primary Care GP services is high on the agenda of households and is a particular aspect of all government party manifestos.

Arun's emerging local plan has increasing incremental annual growth assumptions for housing development. Strategic sites are potentially going to deliver in excess of 1,000 homes per year coupled with non-strategic housing developments such as this.

The volume of housing and occupancy has a necessary impact on the current capacity of the estate that will require additional clinic rooms and medical professionals (and associated support service costs and staff). In order to maintain current healthcare provision, increased estate is necessary.

There is no dedicated Government funding to cover new housing developments. Unless contributions from developments are secured, at worst there will be practices that would be forced to close as there would not be safe healthcare provision. In the least, there will be wait times (mainly driven by no estate / rooms to see patients in) would not be suitable for adequate healthcare.

The plan is therefore to utilise any GP estate that can be 'extended' or built on in the shorter term. In the medium term, there are plans for new GP estate to be built on strategic sites as per the Arun emerging local plan (2011-2031).

ii. Directly related

There is a functional and direct link between the development and the contribution requested. Put simply, without the development taking place and the subsequent population growth there would be no requirement for the additional infrastructure.

The proposed developer contribution is to help achieve a proportionate increase to health infrastructure, to maintain its current level of service in the area.

The infrastructure highlighted and costed is specifically related to the scale of development proposed. This has been tried and tested and has District Valuer support, in terms of the value of contribution.

iii. Fair and reasonably related in scale and kind to the proposed development

The developer contribution is to help achieve a proportionate increase in health infrastructure, thus enabling health to maintain its current level of service. Utilising a housing size as a reasonable proportion of infrastructure scale allows for fairness to all new housing developments, including the sites that are also strategic in nature.

A review of the police CIL compliance and their review of education and library compliance underlie the fair and reasonable approach of the health tariff – which is in turn in line with the other public sector areas.

I trust this sets out the request for infrastructure contributions relating to this development.

Thank you for the continued support in securing health infrastructure contributions to enable the population of Arun to have access to the health care that it needs now and for future generations.

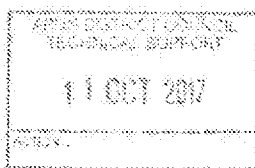

Yours sincerely,

Simon Clavell-Bate

Application for Outline Planning Permission With Some Matters Reserved, Town and Country Planning Act 1990

Publication of applications on planning authority websites.

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

1. Applicant Name, Address and Contact Details

Title:	First Name:	
Company name:	Walbeck Strategic Land II LLP	
Street address:	C/O ECE Planning	
Town/City:		
Country:		
Postcode:		

WA/73/17/OUT

Outline Planning Application with some matters reserved for up to 157 No. residential dwellings including 30% affordable. This application is a Departure from the Development Plan.

Land East of Wandleys Lane and West of West Walberton Lane Pontwell

Are you an agent acting on behalf of the applicant? ☒ Yes ☐ No

2. Agent Name, Address and Contact Details

Title:	First Name:	Surname:
Mr	How	James
Company name:	ECE Planning Limited	
Street address:	Brooklyn Chambers	
	11 Goring Road	
Town/City:	Worthing	
Country:		
Postcode:	BN12 4AP	
Telephone number:		
Mobile number:		
Fax number:		
Email address:		

3. Description of the Proposal

Please indicate all those reserved matters for which approval is being sought:

☒ Access ☐ Appearance ☐ Landscaping ☐ Layout ☐ Scale

Please describe the proposal:

Outline Planning Application for up to 157 No. residential dwellings including 30% affordable, all matters to be reserved apart from access.

Has the building or works already been carried out? ☐ Yes ☒ No

Planning Portal Reference: PF-06395259

ARUN DISTRICT COUNCIL WA/73/17/OUT

13. Biodiversity and Geological Conservation

- a) Yes, on the development site ☐ Yes, on land adjacent to or near the proposed development ☐ No ☐
- b) Designated sites, important habitats or other biodiversity features
- ☐ Yes, on the development site ☐ Yes, on land adjacent to or near the proposed development ☐ No
- c) Features of geological conservation importance
- ☐ Yes, on the development site ☐ Yes, on land adjacent to or near the proposed development ☐ No

14. Existing Use

Please describe the current use of the site:

Pasture land

Is the site currently vacant? ☐ Yes ☒ No

Does the proposal involve any of the following?

If yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated? ☐ Yes ☒ No

Land where contamination is suspected for all or part of the site? ☐ Yes ☒ No

A proposed use that would be particularly vulnerable to the presence of contamination? ☒ Yes ☐ No

15. Trees and Hedges

Are there trees or hedges on the proposed development site? ☒ Yes ☐ No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?

☒ Yes ☐ No

If Yes to either or both of the above, you may need to provide a full Tree Survey, at the discretion of your local planning authority. If a Tree Survey is required, this and the accompanying plan should be submitted alongside your application. Your local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

16. Trade Effluent

Does the proposal involve the need to dispose of trade effluents or waste? ☐ Yes ☒ No

17. Residential Units

Does your proposal include the gain or loss of residential units? ☒ Yes ☐ No
