Subject: RE: WA/73/17/OUT

Thank you Mr Temple for your quick reply. I have now located my letter.

The latest Indicative map appears to relate to the highway from the proposed development to the junction of Wandleys Lane with West Walberton Lane. I have already made comment on footpaths and traffic particularly during construction stage in page 2 of my letter of 8 November and consider that the changes do not satisfy my concerns.

I would also like to add that I fear that the increase in volume of traffic in the area from both the development and the proposed improvement to the A27 will exacerbate the present problem of access from the Old Arundel Road to the outside lane of the south carriageway of the A27 before reaching the roundabout to go north on the A29 or east on the A27. At peak time I fear that the traffic will be at a standstill between the junction and the roundabout and at other times there will be a safety hazard weaving between lanes over the short distance between the junction and the roundabout.

I will be putting the above into a letter in due course

Yours

Alan Allison

Dear Mr Allison,

Email acknowledged.

I have passed your email below
to our tech support team to check for the original letter.
It shows on our internal system.

Regards,

Richard Temple | Senior Planning

WA/73/17/OUT

Dear Mr
Temple

Today I received a
letter from Mr Crowther on the above. I tried to contact you by telephone as outlined in the letter but you were
not available. Would you please note that my surname is Allison not Alison as on the letter.

I was unable to trace my letter of 9 November
2017 on the website - it is not the easiest of portals - although I did find my wife's. She also received a letter today
with the incorrect spelling of her surname.

Would you please provide me
with the placing of my letter on your website in order that I can consider any further consideration. It would also be
helpful if you would identify the particular change in Indicative Road Layout and Access plan as I did raise with
Highways England the problem of access from the old Arundel Road onto the south carriageway of the A27 during
the consultation on the Improvements to the A27. I was told at the time that that junction was outside the
Improvement under consideration. I have since raised this with our Local MP.

Would you please
acknowledge this email

Yours sincerely

Alan Allison
