Dear Miss/Mrs Gardener,

It has been brought to my attention that a new planning application has been made regarding the above reference number. As of yet no yellow planning notices have been displayed on the mentioned site. I believe this has to be done in accordance with ADC,s rules of applications. This will be the forth application made by Mrs Osbourne where the yellow planning notices have failed to be displayed. On more than one occasion a member of your office has had to come out and put them up. I strongly recommend that the notices be displayed and enforced and an extension of time for comments to increased in line with the councils own rules of the application.

It is my concern that the applicant is trying to get the planning pushed through under the radar. The applications passed thus far and the new application together would create a site that was previously rejected by the council. Therefore I believe it would be in the best interest of all involved that more time should be allowed for further study.

Kind regards

Darren Mills
