Dear Mr Davey,

Thank you for your email. I have spoken with our Conservation Officer who believe that this would be acceptable screening.

I do not think we will need details of screening at this stage, it will likely be ensured by way of condition.

I understand that the foliage would take time to establish, a Laurel hedge along this boundary would be looked upon favourably.

Would you be agreeable to an Extension of Time until the 7th of December?

Kind regards,

Z Denton

Dear Mr Denton,

Further to our telephone conversation yesterday, I have spoken to the applicant who has agreed to include foliage screen along the northern (highway) edge of the proposed garage.

Do you wish us to define the details of the screening at this stage? Please find attached a sketch. I believe any screening will need to be at least 2.4m high to afford any meaningful level of screening.

The applicant and I discussed various options such as a laurel hedge or a climbing plant (clematis or rose) on a trellis or arbor, but any option would take time to establish.

With Kind Regards
