Subject: FW: Spindlewood, Yapton Lane, Walberton, Arundel, West Sussex, BN18 0AS - WA/79/20/PL

Planning Application Reference: WA/79/20/PL

Proposal: Demolition of existing dwelling & erections of 8 No. new dwellinghouses with associated landscaping & parking (resubmission following WA/30/20/PL). This application is a Departure from the Development Plan & is in CIL Zone 3 and is CIL Liable

Address: Spindlewood, Yapton Lane, Walberton, Arundel, West Sussex, BN18 0AS

Dear Andrew Wood,

Environmental Health has no objection to this proposal in principle. Could you please include the following conditions on any permission granted:

Asbestos

The owner(s) of any domestic property built or refurbished before the year 2000 are legally obliged to protect householders from any risks from work activities being carried out in their homes. Where the work being carried out involves Asbestos-Containing Materials (ACM's), then the Control of Asbestos Regulations 2012 will apply. As the proposed development is being demolished and / or renovated, the Council need to be satisfied that any ACM's previously identified as still present, is either removed or suitably managed to minimise risk to human health as there is no safe threshold for asbestos exposure.

Within any owner-occupied domestic properties, the owner(s) are not legally responsible for risks to contractors from asbestos, as the owners themselves are not engaged in any work activity.

Note: If you are planning any DIY home improvements, repairs or maintenance – and intend to bring in any additional builders, maintenance workers or contractors to site – you must inform them of any ACM's in your home before they start work. This will help reduce the risks of any ACM's being disturbed. The domestic enforcement authority; the Health and Safety Executive (HSE) strongly encourages the use of trained professionals to repair or remove ACM's. If an owner / occupier chooses to carry out DIY repairs or remove damaged asbestos materials themselves, they must make sure the right Personal Protective Equipment (PPE) is used and always follow safe working methods. In addition, please be aware that ACM's need to be legally disposed of as 'hazardous waste'. The removed materials should not be mixed with normal household waste. Arrangements must be made to have any ACM's collected by a competent person(s) or there may be special facilities in an area where you can safely dispose of it.

Reason: To protect the amenity of local residents in accordance with Policy QE DM4 of the Adopted Arun Local Plan 2011 – 2031

Construction

No development shall take place, including any works of demolition, until a Construction Management Plan has been submitted to, and approved in writing by, the Local Planning Authority. Thereafter the approved Plan shall be implemented and adhered to throughout the entire construction period. The Plan shall provide details as appropriate but not necessarily be restricted to the following matters:

- a) An indicative programme for carrying out of the works;
- b) Details of the arrangements for public engagement / consultation both prior to and continued liaison during the construction works;
- c) Measures to minimise the noise (including vibration) generated by the construction process to include hours of work, proposed method of piling for foundations, the careful selection of plant and machinery and use of noise mitigation barrier(s);
- d) Details of any floodlighting, including location, height, type and direction of light sources and intensity of illumination;
- e) The parking of vehicles of site operatives and visitors;
- f) Loading and unloading of plant and materials, including permitted times for deliveries;
- g) Storage of plant and materials used in constructing the development;
- h) The erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate;
- i) The provision of wheel washing facilities and other works required to mitigate the impact of construction upon the public highway (including the provision of temporary Traffic Regulations Orders);
- j) Measures to control the emission of dust and dirt during construction;
- k) A scheme for recycling / disposing of waste resulting from demolition and construction works i.e. no burning permitted.

Reason: To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031

Construction hours

No demolition/construction activities shall take place other than from 08:00 hours until 18:00 hours (Monday to Friday) and from 08:00 hours until 13:00 hours (Saturday) with no noisy work on Sunday or Bank/Public Holidays.

[In addition to these hours of working the Local Planning Authority may approve in writing a schedule of activities where it is necessary to conduct works outside the hours specified in this condition]

Reason: To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031

Air Quality

Prior to occupation of any of the dwellings, a scheme for the provision of facilities to enable the charging of electric vehicles to serve the approved dwellings shall be submitted to the local planning authority for

approval and thereafter implemented in accordance with the approved details and the charge points shall thereafter be retained and maintained in good working condition.

Reason: New petrol and diesel cars/vans will not be sold beyond 2040, and to mitigate against any potential adverse impact of the development on local air quality, in accordance with policy QE DM3 (c) of the Arun Local Plan, the Arun District Council Electric Vehicle Infrastructure Study (November 2017) and the National Planning Policy Framework (NPPF)

Contaminated Land

Prior to commencement of the development hereby approved (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), the following components of a scheme to deal with the risks associated with contamination of the site shall each be submitted to and approved in writing by the Local Planning Authority:

1. A Preliminary Risk Assessment which has identified: all previous (historical) uses; potential contaminants associated with those uses; a conceptual model of the site indicating sources, pathways and receptors; potentially unacceptable risks arising from contamination at the site.
2. A Site Investigation Scheme, based on (1) above to provide information for a detailed assessment of the risk to all receptors that may be affected, including those off site.
3. Based on the Site Investigation Scheme and the detailed risk assessment (2), an options appraisal and remediation strategy giving full details of the remediation measures required and how they are to be undertaken.
4. A Verification Report providing details of the data that will be collected in order to demonstrate that the works set out in (3) are complete and identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action.

Note: Any changes to these components, (1) to (4) require the express written consent of the Local Planning Authority

The scheme shall be implemented as approved above and, prior to commencement of any construction work (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), a Verification Report demonstrating completion of the works set out in the approved remediation strategy and the effectiveness of that remediation shall be submitted to and approved in writing by the Local Planning Authority. The report shall include results of sampling and monitoring carried out in accordance with the approved verification plan to demonstrate that the site remediation criteria have been met. The report shall also include a long-term monitoring and maintenance plan for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action, as identified in the verification report, and for the reporting of this in writing to the Local Planning Authority.

Reason: To protect the amenity of local residents in accordance with Policy QE DM4 of the Adopted Arun Local Plan 2011 – 2031

Thank you for your consultation,

Sincerely, Craig
