OWPC40376

Active Travel / Sustainability.

Active travel has been identified as a key role in dealing with Climate Change, Well being, Post covid recovery and air pollution etc... NPPF S 9 is one of the papers that sets out how new estates should be supporting the above agendas .. it is therefore disappointing when applications are still received that fail to lead the way on these agendas. Eg Sites should be designed that allow safe NMU travel around them and link to other routes ... how on earth can residents be offered an alternative means to travel when little or no thought has been given to allow them to do so....Cycle storage .. a bland statement as shown in transport plan is not acceptable... a house owner should come out of the front door of their house and the decision to use the car or cycle should be balanced so cycle storage at the back of the shed in the back garden is not acceptable. Therefore more thought needs to be given on how children can cycle to school, how people can cycle to station and shops, what recreational off road routes can be used so next step is a complete re write of the bland transport plan with all generic comment removed and replaced with how this site is going to lead the way in ensuring modal shift is made in how residents can travel and move around... Disappointing that there is no mention of cycle vouchers !

Your views as made above will be considered before the application is determined.
