Subject: Application WA/84/17/PL

Dear Ms Gardner,

We write regarding the above. The restrictions placed on this conditionally approved application should remain in place. Any proposal for a change of use that would result in additional traffic movements on the narrow lane are unacceptable, and particularly so if they would involve large agricultural (or indeed any other sort) of machinery.. It is difficult enough already for residents to use the lane and any such additional traffic would make this considerably worse.

Yours sincerely,

Mr A & Mrs S Elphick
