Hi Lynnyrd,

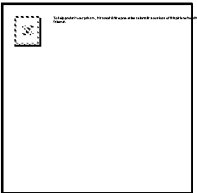

Many thanks for your email regarding our recent TPO application (WA/88/19/T). I have read the comments from the Tree officer and are in agreement with the revisions to the level of work to be carried out on the tree in question (as below).

- Reduce/remove small branches (<50mm diameter) as necessary to achieve a maximum of 1m clearance from overhead cables (telephone and insulated electricity).
- Reduce/remove small branches (<50mm diameter) as necessary to achieve a maximum of 2m clearance from adjacent built structure (dwelling).
- Reduce/remove branches as necessary to achieve a maximum of 6m overhead clearance above the carriageway.

Please let me know if you require any more detail.

Many thanks,

Tim Copeman

Hi Mr Copeman,

I am the case officer for this application (WA/88/19/T) and am emailing you to inform you that I've had the comments back from our Tree Officer, I have attached them above.

Currently the application is set to be refused. However, he has provided comments that, should you agree to, will enable the application to be approved

Please read through the Tree Officers comments and let me know soon if you agree to these revisions and I will write the report up to recommend approval.

Many Thanks

Lynnyrd
