Dear David

Walberton Parish Council have been in touch with us to see if we were aware of the above application on the site at Fontwell Avenue and I have to say that this one passed us by as it has a Walberton reference when we believe it should have been a Barnham and Eastergate BN reference. Looking at previous applications on this site for some reason ADC seem to have given it a mixture of WA and BN references during the course of various applications for the site so it is most confusing.

However, I note that the decision date is today and I believe you should have recently received an objection to the application from Walberton Parish Council particularly highlighting issues in the construction plan especially around

the proposed operational hours of 7 a.m – potentially 7 p.m. and the number of lorry movements anticipated. They also mention drainage issues.

As I said at the start Barnham and Eastergate Parish Council, where the site lies, were not offered the opportunity to respond as they were not formally consulted but please would you accept this email as an objection from the Planning & Environment Committee on the same grounds as those put in the objection from Walberton Parish Council.

Alison Crabb
Clerk, Barnham & Eastergate Parish Council
