Subject: RE: GTR Fontwell Drainage Condition 12

Hi David,

Thanks for sending these over, I've got the following comments:

1. Permeable paving extents need to be more clearly defined on drainage layouts.
2. Catchpits do not appear to be provided upstream of all connections into permeable paving sub-bases, perforated pipes and bases.
3. Calculation printouts should include cover levels.
4. Permeable paving areas should have cap volume depths applied in calculations.
5. Construction detail drawings still have not been provided.

Kind regards,

Laura Gibbons

Drainage Engineer

Engineering Services

Please note that I work Tuesdays 08:00-16:00 for Arun only.
