Subject: WA/88/21/DOC

Dear Planning,

With respect to Condition 21, providing that the mitigation measures and controls referred to in Section 3.4 are complied with, Environmental Health is satisfied and does not have any further comments.

Condition 19 – CMP:

1. Paragraph 6 – there are other potential noise sensitive residences close to the site other than the dwelling to the north east. Please could these other premises be identified, and potential impacts from the works be assessed?
2. Please could the hours of work in paragraph 9 be amended to 8am – 6pm Monday to Friday, 8am – 1pm Saturdays and no work on Sundays and Public Holidays.
3. Paragraph 13 – please could specific details of wheel washing facilities be provided?
4. Paragraph 15 – insufficient information. Please could further detailed information be provided?
5. Paragraph 16 – please could specific information be provided on mitigation measures to be incorporated during the construction works to prevent noise and vibration disturbances?
6. Paragraph 19 – insufficient information. Please could specific details be given on the arrangements of monitoring for noise, vibration and dust levels?

Environmental Health is therefore satisfied that condition 21 may be discharged, but states that **there is insufficient information for Condition 19 to be discharged.**

Regards

Fiona Fitzgerald
