Dear Sir

Re: Planning Application WA/89/18/L

With reference to the above planning application we wish to lodge our objection to the screen already in situ.

As part of a communal residence we were astounded to see the erection of a screen without prior notification of intent to us or for that matter to other residents.

The screen does not sit well within a country house property of the Regency period, which includes Doric columns to the south side of the building.

We feel consideration should be given to the Grade II* classification of the building.

Yours faithfully
