Subject: Consent for a Retrospective Listed Building.

Sir,
I refer to the Planning Application Ref: WA/89/18/L 'Retrospective listed build consent for a replacement privacy screen on the patio wall of No, Walberton Park.

We are the neighbours at No, 12 Walberton Park who live immediately above No, 9 with a view of the patio. Intentionally, in previous years, the surrounding garden area of the patio has not been managed and had become unsightly with expansive overgrown vegetation and not in keeping with the gardens of the estate. The present leaseholders have removed the vegetation and old wooden screen and put in place an attractive easy maintenance privacy screen. It is our understanding that it has been agreed by the Walberton Park Management Company to plant a hedge on the north and west side of the patio so that the previous screen will not be seen by the neighbours of the flats 1-8 that overlook the patio. We have no objection to the new privacy screen.

Your faithfully,

Andrew and Cheryl Priest
