POLICY COMMENTARY

The above policies combine to describe the criteria against which the application will be assessed particularly with regard to the architectural and historic interest of the Listed Building

DEVELOPMENT PLAN AND/OR LEGISLATIVE BACKGROUND

Section 16(1) of the Planning (Listed Buildings & Conservation Areas) Act 1990 states:
 "In considering whether to grant Listed Building Consent for any works, the Local Planning Authority shall have special regard to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses."

The proposal is considered to comply with these criteria in that it is not considered to materially affect the architectural and historic interest or the setting of the Grade II Listed Building.

OTHER MATERIAL CONSIDERATIONS

It is considered that there are no other material considerations to warrant a decision otherwise than in accordance with the Development Plan and/or legislative background.

CONCLUSIONS

The conspicuously modern design of the building ensures the new building remains distinct from the Listed Building thereby preserving its integrity, and a garage building to the far corner of the plot, unattached to and set well away from the main building, is not an untraditional feature to a rural domestic property. As such it is not considered to adversely impact upon the setting of that building. It is therefore recommended that the consent be granted, subject to the conditions set out overleaf.

RECOMMENDATION**APPROVE CONDITIONALLY**

- 1 The works for which Listed Building Consent is hereby granted must be begun not later than the expiration of 3 years beginning with the date of this consent.

Reason: To comply with Section 18 of the Planning (Listed Building and Conservation Areas) Act 1990.
