Hi Janice,

Conditions
The Whitebeam tree should be retained but crown reduced, limiting the extent of pruning cuts to not exceed the previous knuckle/lopping points.

The Purple Plum to be crown balanced where necessary to provide a more symmetrical shape by limiting the amount to be removed by not exceeding 0.5m.

Ian,

You did respond regarding the Whitbeam not Sycamore as submitted. However, I do not seem to have a consultation response regarding if the proposed surgery is acceptable.

Purple Plum - Reduce crown by 10%-15% and crown thin by 10%.
Whitbeam - Reduce crown by 20%.

They also submitted a further application WA/97/11/TC for the Sycamore (should be Whitbeam) for it to be felled. I have told the applicant that this is unlikely as it is covered by TPO/3/99. If you agree, then this notification can be withdrawn.

Please confirm.

Regards

Janice

Hi Janice,

are you/they happy with the works. Have you got enough from me regarding this application?

Ian
