Dear Sirs

Re: APPLICATION TO LOP/PRUNE TREES
MAPLE PARADE WALBERTON West Sussex BN18 OPN

St.Pier Limited is the owner, and Landlord, of premises known as Maple Parade, Walberton where there are two large trees which are now in need of pruning.

We respectfully request consent to instruct a qualified tree surgeon to prune and trim these trees which are now dangerously close to our building and severely restrict natural light to some of our shops and flats. The cost of the works will be met by St. Pier Limited

Our proposal is to instruct TRANSFORM, a reputable and local contractor, to carry out the works on our behalf. A photo of the trees is attached for your information.

Your prompt response will be appreciated.

Kind regards

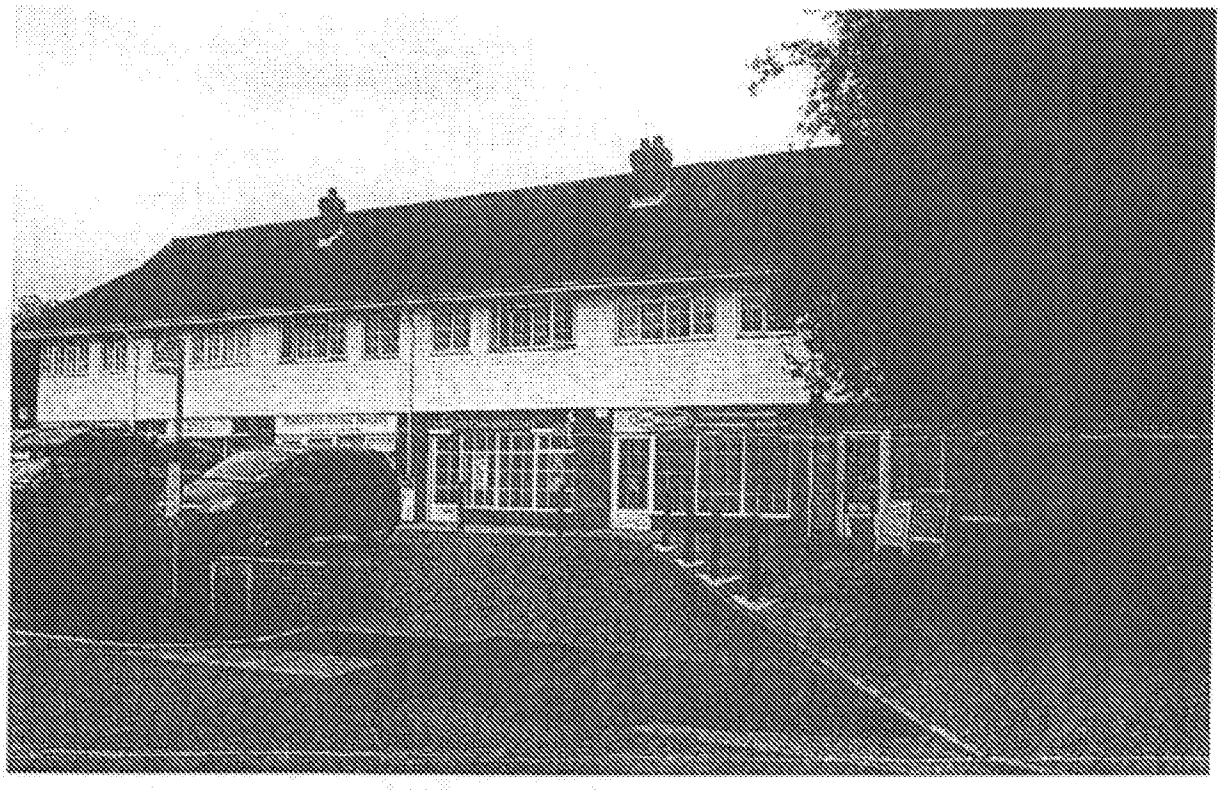

Y[redacted]

Welcome to *Transform Landscapes*

Transform has been designing, creating and maintaining imaginative gardens for private and commercial clients since 1988.

From small town gardens to large country estates, children's hospices to company grounds, and hotels to public spaces, Transform has the creativity, skills and dedication to design, create and maintain out-of-doors environments which are both beautiful and unique. The Transform Team are specialists who quite simply achieve outstanding results - even when a site is challenging or with difficult access. We are well known for our unique blend of design excellence, with creative yet realistic planning schemes, and a dedication to exceeding client expectations. We are working successfully with:

- Private homeowners who are planning their dream garden, or would like to entertain more out of doors, or wish to enhance the look and value of their property prior to selling.
- Commercial & Public Sector organisations who need to maintain high standards in their gardens, grounds or landscapes.
- Garden Designers & Landscape Architects

If you have ideas, aspirations or responsibilities for landscapes big or small please contact me, Simon Grey, on 01428 652222 or by email for a free initial consultation.
