Dear Mr Corbey

Thank you for the e-mail below.

I am happy to agree to an extension of time to 4th January, and would be happy to accept the pre-commencement condition.

Merry Christmas to you also.

Kind regards

Ivan Salter

Dear Mr Salter,

In reference to the above application we have had the opportunity to assess the proposal and although we are looking to permit the application, in consideration of the Christmas break and our need to seek your agreement to the content of the attached letter, we would like to request an extension to the time until the early part of January 2019 to enable us to get up to speed with issuing these decisions.

Please see the attached letter for your agreement to a pre commencement condition.

With this in mind would you be agreeable to an extension of Time until 4th January 2019?

Your written response would be most appreciated.

Please let me take this opportunity to wish you a very Merry Christmas.

Kind regards

Development Management

Dear A J Salter,

**Town and Country Planning (Pre-commencement Conditions) Regulations 2018 -
Notice regarding intention to impose pre-commencement conditions**

A pre-commencement condition is defined in section 100ZA(8) as a condition imposed on a grant of planning permission (other than a grant of outline planning permission within the meaning of section 92 of the 1990 Act) which must be complied with (a) before any building or operation comprised in the development is begun, or (b) where the development consists of a material change of use of any buildings or other land, before the change of use is begun.

The LPA are considering imposing the following pre-commencement conditions on the application mentioned above.

Condition 5:

Development shall not commence, other than works of site survey and investigation, until full details of the proposed surface water drainage scheme have been submitted to and approved in writing by the Local Planning Authority. The design should follow the hierarchy of preference for different types of surface water drainage disposal systems as set out in Approved Document H of the Building Regulations, and the recommendations of the SuDs Manual produced by CIRIA. Winter groundwater monitoring to establish highest annual ground water levels and Percolation testing to BRE 365, or similar approved, will be required to support the design of any Infiltration drainage. No building / No part of the extended building shall be occupied until the complete surface water drainage system serving the property has been implemented in accordance with the agreed details and the details so agreed shall be maintained in good working order in perpetuity.

From 1 October 2018 section 100ZA(5) provides that planning permission for the development of land may not be granted subject to a pre-commencement condition without

the written agreement of the applicant to the terms of the condition (except in the circumstances set out in the Town and Country Planning (Pre-commencement Conditions) Regulations 2018).

In order to progress your application you are asked to confirm in writing your acceptance of the proposed condition(s) by 30th December 2018. If you provide a substantive response before the (insert date) we may be able to issue a decision prior to that date.

Your other options are:-

- provide comments (within the time limit) on the proposed pre-commencement condition, in which case that condition cannot be imposed
- choose not respond (i.e. remain silent). If there is no response by the date given in the notice the local planning authority may grant planning permission subject to the terms of the pre-commencement condition specified in the notice
- indicate (within the time limit) that you do not agree to the terms of the proposed pre-commencement condition, in which case the local planning authority may then either:
 - i. grant planning permission without the pre-commencement condition,
 - ii. seek written agreement to an alternative pre-commencement condition, or
 - iii. refuse to grant permission (if it considers that the disputed pre-commencement condition is necessary to make the development acceptable in planning terms).

Please contact me to discuss the matter if there is anything in the letter that you require clarification on.

If you wish to discuss the contents of this letter, or if there is anything you do not understand, please contact me.

Kind regards
