Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No: WA/93/20/PL
Site Address: Land East of Tye Lane Walberton BN18 0LU
Description of works: Alternative vehicular access off Tye Lane & emergency access off Avisford Park Road, along with minor highway works following WA/95/18/RES. This site is in CIL Zone 2 (Zero Rated) as other development.

Thank you for your internet representation made on 10th April 2021 which has been recorded as an objection with the comments as follows:

OWPC35059

I strongly object to this application. My wife and I have lived in Tye Lane for over thirty years and have witnessed a steady and constant increase in traffic year by year, in more recent years there has been a huge increase in the number of HGV's using Tye Lane. The lane is too narrow for the traffic already using it, there are several points in the lane where there is hardly sufficient space for two vehicles to safely pass each other. The margins of the road surface have gradually been pushed back year by year by this increase of traffic to the point where the road edge is virtually in the drainage ditch.

The amount of traffic that would emerge from the site and, particularly if the grey A27 route goes ahead, would all have to pass through the village would be dangerous and unsustainable given the present levels of traffic, particularly at peak times of day.

The developers must have known about HE's proposals for the various routes, why did they go ahead knowing that this situation could develop? Why should Walberton residents have to suffer for their decision to go ahead with the site?

It would seem that no decision can be made on this application until the route for the A27 has been finalised and then options for egress of traffic from the site can be considered.

Your views as made above will be considered before the application is determined.
