Notes

Notes

Final design of play area must be agreed with Local Authority prior to installation.

All play equipment and safety surfacing to be installed in accordance with European Safety Standards BS EN 1176, BS EN 1177 and BS EN 7188.

Exceed EU Standards taking account of maximum fall height to be determined by relevant expert of design and minimum depth of safety surfacing must be determined by **installing contractor**. Refer to manufacturers installation instructions.

All equipped play areas should be subject to an independent post-installation inspection by a certified inspector as registered with the Register of Playground Inspectors International (RPI) e.g. ROSPA prior to opening.

GENERAL PRINCIPLES:-

- Provide a range of inviting and stimulating play areas for children of all ages.
- Provide a range of play areas that are complementary to their setting within the site.
- Include numerous pieces of fast play equipment, providing a range of play experiences with appropriate safety surfacing.
- Select play equipment that is durable, safe, engaging and inclusive.
- Provide seating for adults, including benches and picnic tables.
- Encourage with lighting and gates only where appropriate.
- Designed to comply with relevant European legislation and regulations.
