

STATEMENT

Cherry Tree Nursery, Eastergate Lane, Walberton, West Sussex, BN18 0BA

1. I, Doreen Frances Boucher live at Cherry Tree Nursery together with my husband, Richard and my son Gary. I make this Statement believing its contents to be true.
2. My husband and I moved to Cherry Tree Nursery in 2013 and prior to that we lived in Bognor but we needed to move back to Cherry Tree Nursery because our son Gary has had significant medical problems and needed our full time care and supervision.
3. I am able to make this Statement from my own personal knowledge and I can confirm that my son Gary Boucher purchased Cherry Tree Nursery in about 1990. He then set about trying to run a nursery, which proved very difficult and as a result he started diversifying into other lines of business in order to generate income to keep the nursery going.
4. Even though we only moved back here in 2013 prior to that date we had been daily visitors for over 12 years because we had to visit on a daily basis in order to look after Gary who needed our help, and he is our only son. Therefore I, together with my husband have been intimately involved in Cherry Tree Nursery since the late 1990's and I am therefore aware of the fact that there have always been uses other than nursery growing on the site.
5. I know that the site has been used for stationing a number of mobile homes and caravans, and in particular I know that there is a plan from a site visit which I believe was undertaken by Arun District Council in September 2000 when they identified in addition to the mobile home in which we live as a family, two further mobiles homes and a touring caravan, all of which are still on site today and I attach as Exhibit 1 to this Statement the plan from the site visit showing the location of the two mobile homes that I am referring to and the touring caravan; these are numbered 7,8 and 9.
6. Mobile home number 9 has now been brought back down so that it is adjacent to the actual nursery buildings. These mobile homes are now in a poor state of repair.
7. I can confirm that so far as mobile home number 8 is concerned from about 2001 Mr Ling who worked for LEC refrigeration lived in this mobile home. He retired in about 2004 or 2005 and continued to live on site but I recall that he could not afford to pay his rent therefore Arun District Council paid his rent and inspected

his mobile home on a regular basis. I would ask the Council to inspect their records because they must have evidence of the rent having been paid and inspections being undertaken of the mobile home, and I believe that these inspections would have commenced in 2006. Mr Ling stayed living in the mobile home until he went into residential care.

8. Following Mr Ling's departure we leased the mobile home to Simon Burford, he stayed until just over a year ago because his parents needed his care and after he left the mobile home it was damaged in a storm when the roof came off and we would have repaired this mobile home but because Mr Burford had vacated it we decided it was better to replace it.
9. When we came to replace the mobile home we were approached by John Crossling and we agreed that he could site his mobile home on our property as the replacement mobile home for the one which I have identified as number 8.
10. Therefore I believe that the rear part of Cherry Tree Nursery has always been used as a site where there has always been a mobile home sited and that this use has carried on for more than 10 years and therefore in regard to the siting of one mobile on the rear part of Cherry Tree Nursery which edged red on the plan at Exhibit 2 of this my Statement, accompanying this application for a Certificate of Lawful Use and I believe that the application should therefore be granted.
11. I understand that there has been concern expressed by Arun District Council in regard to the track leading up to the mobile home sited by John Crossling but I can confirm that there has always been an access track running up through the Nursery and the only works that have been done to it have been a re-grading and re-surfacing of the track in order to make it usable as a the road leading to the mobile home.
12. I understand that Arun District Council are also concerned about the storage of tyres. I can confirm that when my husband and I returned to Cherry Tree Nursery in 2013 there was an Enforcement Notice from the Environment Agency and we dealt with Nigel Oliver at the Environment Agency in regard to the removal of tyres and I enclose at Exhibit 3 to this my Statement the letter that my husband received from the Environment Agency together with at Exhibit 4 all the receipts for the removal of tyres which show that there are no tyres on this property.
13. I also wish to deal with the storage of boats and cars. As I have said above, when my son Gary was trying to run the nursery he found it very difficult to make it pay and therefore diversified into other ways of gaining an income to try and support the nursery. It was very easy to take in boats and cars and I show the two areas used for storage of boats and cars edged in red on plan 2 attached as Exhibit 5 to

this my Statement, with the boats mainly stored in Area A and the cars mainly stored in Area B.

14. I can confirm that this has been going on for many years and since at least the late 1990's. There is no doubt that when my son Gary had his mental breakdown there were numerous people who took advantage of his mental condition. However we have used the two areas that I have marked on plan 2 for storage for more than 10 years and whilst the number of boats and cars have varied over the years which is hardly surprising because by their very nature car and boats are movable objects which come and go.
15. However the area has always been used for storage and has never been empty. We have always had some cars and some boats in each respective area and my view is that the boats would have varied from anything between 2 and 10, and the cars would have varied from about 5 to about 25. It is virtually impossible to be any more precise with the number of boats and cars stored on site at any one time, however the storage areas have always been kept available for storage.
16. I confirm that I make this Statement as a Statement of truth and from my own personal knowledge of the site.

Date: 17 October 2014

Dear Mr Boucher,

I am pleased to enclose a document signed by Ian Walton which cancels the Enforcement Notice previously served on you.

This closes our case and we will not visit your premises again. Ed Schmidt and I would like to thank you for your co-operation and the hard work you have put into remediating the site.

Should you have any questions or any concerns in the future please do not hesitate to contact myself or Ed.

Yours faithfully
