Importance: High

Good morning Nicola,

Unfortunately I have only picked up this request for further information today due to the Christmas shut down and I am hoping we can provide the necessary information to validate the DOC application.

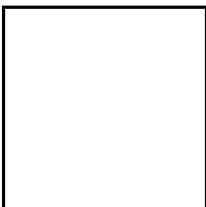

In relation to the items referred to on your letter, I have now uploaded the missing document 'Dwg No FON-161-02-A Surface Water Longitudinal Sections' to the Microsoft Teams link as well as attaching the file to this email. From previous experience, I appreciate that it can be difficult to access documents via email and hopefully this should suffice.

The second item on the letter which relates to condition 27, this was a typo internally and I can confirm that condition 27 has been submitted as part of this DOC application. The relevant information to support condition 27 has been submitted although should you have any difficulties accessing this, please request and I can upload/submit to you.

The letter requests the information to be provided **by 4th Jan 2021** and if you could confirm receipt of the information to ensure the application is validated this would be much appreciated. Should you have any further queries, please do not hesitate to make contact.

Kind regards,
Sam

Sam Pinkus
Planning Co-Ordinator
