

10th March 2021

Arun District Council Planning Authority
C/O
Dandara (Southern) Ltd

Our Ref : 19-003

Dear Sir/Madam,

Land off Fontwell Avenue, Fontwell

We write to you in relation to the above site - planning ref WA/99/20/DOC and the comments recently forwarded to Icosa Water.

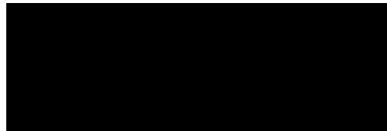

I can confirm that the foul network will be managed in perpetuity and in just the same as the surface water network. This would be in exactly the same way as it would be if Southern Water were the licence holder for this site.

It should be clearly stated and noted that this is not a private arrangement in any way. Icosa Water are a Water & Sewerage Company in the same way that Southern Water are, or any other incumbent for that matter. Our responsibilities to customers match that of Southern Water and our service levels likewise, match that of Southern Water.

We are regulated by Ofwat in exactly the same way as well and have the same commitments to them as well as the DWI and CC Water.

I trust the details supplied are sufficient to allow discharge of the associated planning conditions.

Yours faithfully

Stephen Bradley
Managing Director
Icosa Water Ltd
