Dear Sirs,

Planning Application Weekly List W/7/08 – Land at junction of Burpham Road and The Street Warningcamp

The above application has been considered by the parish planning committee. There is no objection to the application in principle but the following comments were made:-

1. The existing hedge adjoining Burpham Road should not be interfered with either by the new building or during the construction works.

2 It is felt that as a condition of the planning permission the applicant should provide o0ff street parking. At present the applicant parks her van beside the gate into the field where it causes a major traffic hazard to cars wishing to turn into Burpham Road from The Street, particularly as it is difficult to see vehicles coming from Burpham.

Yours faithfully
