Dear Mr Inglis,

We are required to post notices so that all adjacent landowners are aware of the development. In this case, we posted 4 site notices:

- 1 on a telegraph pole to south of Bilsham Road Junction;
- 1 on a field gate to the west end of Gravatts Lane West;
- 1 on a white & blue field post on the site frontage; and
- 1 on a field gate at the access point onto the A259

It may be that the residents living closest will not write in or perhaps are busy formulating their responses but in any case, they will be aware of the development.

Kind Regards

Simon J Davis MRTPI | Principal Planning Officer, Planning Department, Directorate of Place, Arun District Council |

Mr Davis

I note that there are no letters of support or objection from people who live near to the proposed development. Could this be that the only notice that can be easily seen for the planning application is at the end of a cul-de-sac, Grevatts Lane West, that nobody travels down? Quite possibly there is a notice on the A259, which might be the reason there are a large number of objections from cyclists, but who can see it when travelling at 60mph? The notice for Y/86/18/PL is posted well away from the site in many places, why not so for Y/103/18/PL?

Murray Inglis
