Crematorium application grevatts lane

This application is not needed and now they want access across a brand new cycle route:

Traffic assessment was on a cold day with poor weather on 2nd Feb with a further assessment on a Sunday 10th which is day they would not even be open

This is a disgrace; this landowner is trying to make Arun District look stupid and is trying to undo all the good work that has been completed by those trying to encourage people to use more sustainable transport

Disgusting throw it out - maybe it's time to meet the landowner at the council meeting instead of hiding behind his minions

In fact maybe all landowners should have to be present at application meetings and they should also be made to present their documents this would stop them trying to bamboozle with their raft of documents. One I spotted was 630 documents

Come on Arun
