Hi Simon

Y/103/18/PL

As you will be aware there has been a lot of criticism regarding the above planning application especially from Cyclists and walkers using the new A259 off road route. The main criticism being why cut through a new cycle route when they could use Bilsham Road to access the crematorium

I understand that this position has now moved forward and application agreed.

SO whilst i have seen the plans i can't quite understand how walkers and cyclists will be treated.

My request is that ADC working with WSCC (Steve Shaw) will look at creating a junction that is similar to the one built at Comet Corner and Bilsham road so that the crossing is safer for users and motor vehicles alike.

Similarly it would seem pragmatic at the same time to extend this route along Grevatts lane west so that there is access to Bilsham road for walkers and cyclists. This was under consideration by means of Community Highway Scheme which was looked upon favourably at this months meeting but had to be set aside until the outcome of this planning application

I look forward to your update on junction plans

Cheers
Chris
