

This is a black and white architectural elevation drawing of a house. The main structure has a gabled roof with horizontal siding. A small dormer window is visible on the left side of the roof. To the left of the main house is a covered porch with a gabled roof supported by columns. To the right is a sunroom with a gabled roof and large glass doors and windows. The drawing uses fine lines for siding and thicker lines for structural elements.

This architectural elevation drawing shows a two-story house with a gabled roof. The roof is covered with horizontal lines representing shingles. The main body of the house has horizontal siding. On the second floor, there are four double-hung windows. On the first floor, there are two double-hung windows, one on each side of a central sunroom. The sunroom has a gabled roof and is enclosed with large glass panels. A small decorative finial sits atop the sunroom's roof. A small downspout is visible on the left side of the house.

This is a black and white architectural elevation drawing of a two-story house. The house features a gabled roof with a chimney on the right side. A sunroom with multiple windows is attached to the left side of the main structure. The drawing uses horizontal lines to represent siding and includes various window and door details.
