

Maypole Inn, Maypole Lane, Yapton, West Sussex, BN18 0DP

Lighting Assessment

Generally:

No additional lighting provision is proposed in association with this application.

Installation Details:

Existing external lamps provided for security and safe access reasons, which need to be repositioned due the location of the new buildings, are wall mounted and will be positioned below roof level.

Light fittings will incorporate cowels or hoods and angled downwards to prevent light spread greater than 70 degrees.

Lamps will be of maximum 500 lumen, narrow spectrum and minimal ultra violet.

Controls:

The lamps will be on for short duration; controlled via light sensitive photocells, movement sensors and timers.
