Dear Simon,

Planning Application to discharge condition 11 (appeal ref) W/4000394 (application ref Y/103/18/PL) for Single Chapel Crematorium with car parking, landscape works, surface water drainage features and associated highway improvements

Please find submitted through the planning portal an application for the discharge of Condition 11 with regard to the need for a written scheme of investigation (WSI) to be submitted by the applicant and approved by the Local Planning Authority.

The WSI has been prepared by (WSI) has been prepared by Edward Wing of L – P : Archaeology following a desk based study which has been carried out by the Howlett consultancy on behalf of Crematoria Management Limited

The applicant has been in contact with James Kenny of Chichester District Council who provides consultancy advice to the County. In an email dated today he has confirmed:

I can't get Arun DC's website to work properly this morning so I'm not completely certain whether or not the WSI has been produced in response to a planning condition. If it has (as stated in section 2.1.1), then my indication that it is satisfactory must be treated as informal guidance and the WSI should be formally submitted to ADC for discharge of the condition (and when asked by them to comment I shall confirm this with them and recommend discharge).

This application is the formal request to discharge this condition, this will allow the investigation specified in the WSI to be secured and completed on site in advance of development.

I do hope you have everything you need to determine application, but should you require further information please let me know.
