Hi David,

Please see amended plan attached with the additional charging points.

Kind regards,

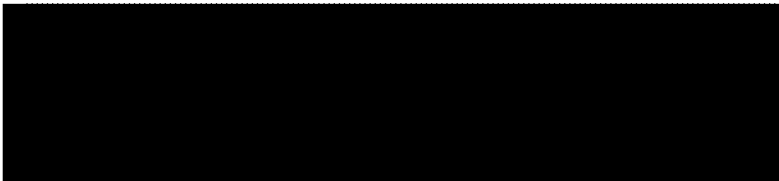

NOTE: Email originated outside of Bovis Homes.

Natalie,

Almost there. Can you submit an updated plan to reflect this improvement? Once received I will send the discharge of condition notice out.

With thanks,

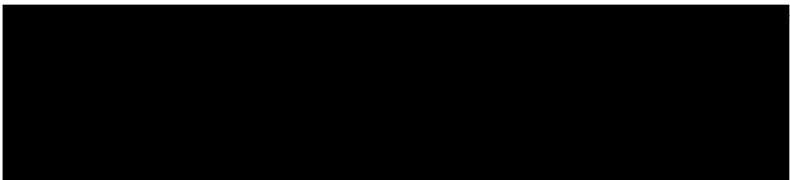

Dear David,

Thank you for forwarding this; sorry it's taken me a little while to get to your missive. EH are satisfied that the developers have agreed to the amendment and anticipate submission of an updated plan to reflect this improvement. In the meantime, it is suggested that the condition can be discharged.

Many thanks,

Kate.

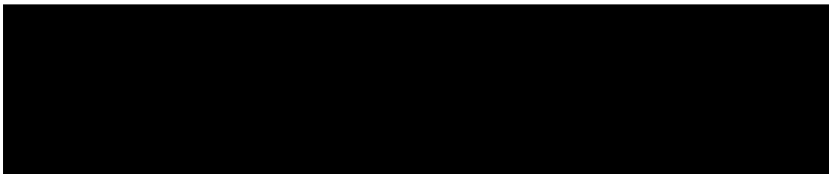

Kate,

Please see email below. Is this ok for you or would you like to see a plan showing this?

With regards,

David Spring B.Sc, M.Sc, M.A

Hi David,

We are happy to provide an electrical charging point for plots 16, 17, 81 and 82. We can also install the sockets which can easily be changed to enable the future provision of electric chargers for the communal charging points as the cables will all be in place.

I hope that this information will clear the condition.

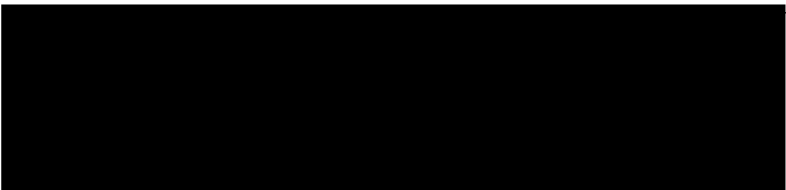

Kind regards,

Hi Natalie,

Of course. Will we agree to an ext. of time until 13th February?

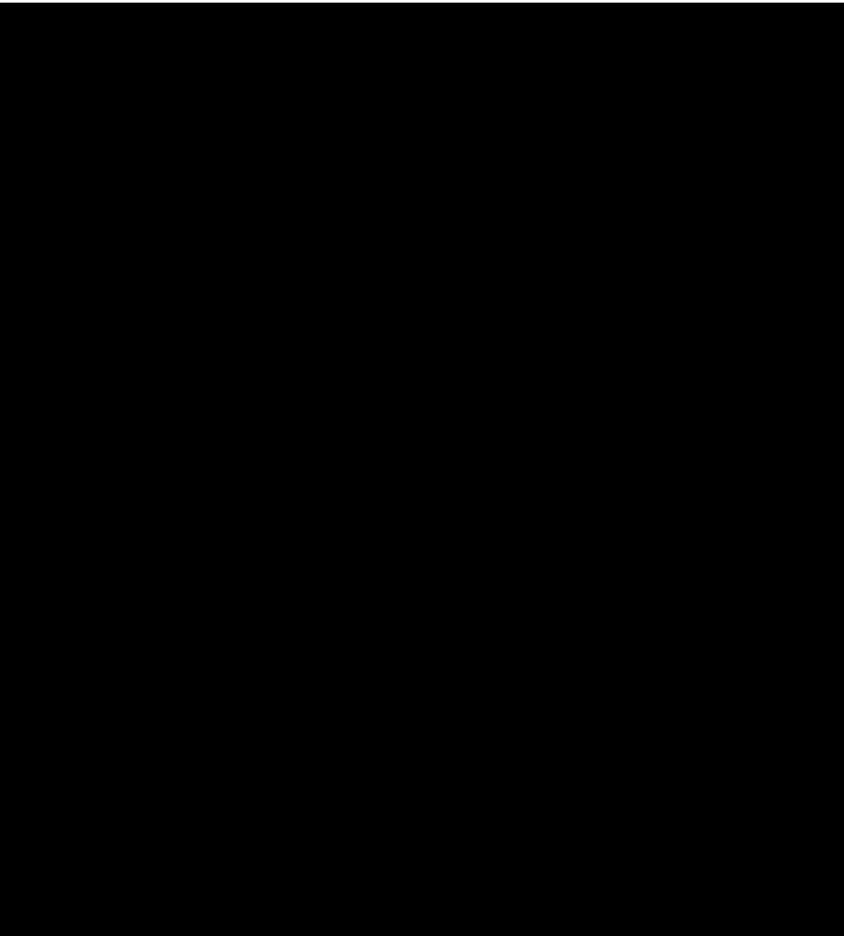

With regards,

Hi David,

Thanks for letting me know, please can we extend the expiry date? I will chase up the queries and come back to you as soon as I can.

Kind regards,

Hi Natalie,

I hope you're well.

The expiry date for this application is tomorrow. While you are considering the comments from Environmental Health can we agree to an ext. of time for a week or so or longer if you feel you need more time to deal with the additional information required? Until February 6th?

With regards,

David Spring B.Sc, M.Sc, M.A

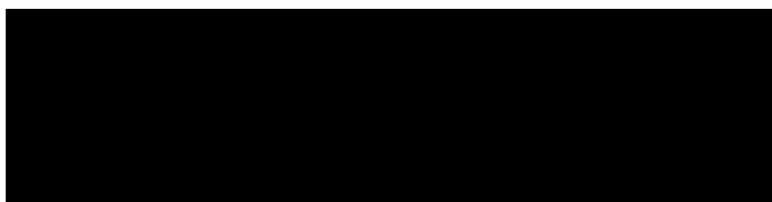

Hi Natalie,

Please see the response I just got back from Env. Health. I look forward to hearing back from you.

With regards,

David Spring B.Sc, M.Sc, M.A

Hi David,

Thank you for the additional documentation.

The submission appears satisfactory but before this Department is able to recommend the condition for discharge, please may the applicant advise whether it is possible to have EV charging points for units 16 & 17 and 81 & 82? In addition, it is recommended that the two 'universal' fast-charge points located next to the parking spaces allocated for unit no. 63 and unit no. 74 are either each made into double points or cabling is installed to each point to enable future provision of additional EV charging facilities. This will assist in addressing the lack of charging points for the apartments (56-63 and 67-74) and for houses 64, 65 and 66.

Many thanks,

Kate.
