Dear Kathryn

Please see the answers to your questions from the tree surgeon.

I hope this will meet with your approval

Kind regards

Paul

Hi Paul thank you for your email firstly with reference to a Tree

The tree in question is mature sycamore with a height of 13 m and a canopy spread of 10 m the tree looks to be in good health however it does have a large wound at the base which is slowly healing over. The proposed work to the tree is maintenance we would like to re-reduce it to its previous pollard points which would be a case of Reducing the height By 3 m and the lateral canopy spread by 2 m all work would be carried out in accordance of British standards BS3998.
