Dear Kerry,

We don't have any set format however, on one of my other applications (BN/50/20/PL), they recently submitted an ecological enhancement plan and separate specification which has been accepted by our ecologist so you may want to look those up. I would also suggest that you work from the suggested enhancements in the ecologists first comments on the application (see enhancements in the attached).

Thanks

Hi Simon, the applicant is working with the project ecologist to prepare the information on biodiversity net gain and has asked for clarification on what is expected to accompany this – are you able to provide be with a good example of what is expected?
