Dear Stephen, Mary and Martin,

Please find attached the completed reptile survey and biological records appendix, and thank you again for the opportunity to work for you. I have left the reptile felts in place on site just in case they request further surveys then it will be quick and easy for us to go back and do a couple more checks if necessary. Hopefully that won't be needed and this will satisfy their concerns.

We genuinely welcome any feedback you can give us. I would really appreciate it if you could quickly (<1m) review me and the service you have received. You can do this by visiting here:

[REDACTED]

Let me know if there is anything else I can do for you.

Kind regards,

Natalie Evans HND, BA(Hons.), MA
