1.0 INTRODUCTION

1.1 *Preamble*

1.1.1 This Framework Residential Travel Plan (TP), has been prepared on behalf of Redrow Homes Ltd ('the applicant') in support of a Reserved Matters Application (RMA) with respect to the permitted development of 100 dwellings at 'Land to the south of Ford Lane', Yapton, West Sussex. **Figure 1** presents the site's location.

1.1.2 This TP has been prepared to discharge Condition 12 of the decision notice (appeal reference: APP/C3810/W/17/3170059), prescribing the requirement for a Travel Plan. The full wording of Condition 12 is extracted below for ease of reference:

"12) No part of the development shall be occupied until a Travel Plan, including a timetable for implementation and periodic review, has been submitted to and approved in writing by the LPA, The Travel Plan shall be implemented as approved."

1.1.3 Over the course of the planning and design process the site layout has been carefully designed to ensure that:

- The footway and cycle network through the site would allow safe pedestrian access between the site and the existing pedestrian / cycle network;
- The internal road and footway / footpath network would allow for safe passage of non-motorised road users; and
- All residential properties have sufficient space for cycle storage facilities.

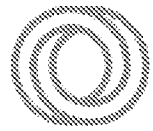

1.1.4 In accordance with national and local government policy the site has been designed to promote sustainable, healthy lifestyle choices, and provide the means for residents to reduce Single Occupancy Vehicle (SOV) trips.

1.1.5 The proposed site layout of the development, encompassing the dwellings which would be covered by this TP, is contained in **Appendix A**.

1.2 *TP Context, Aims and Objectives*

1.2.1 The National Planning Policy Framework (NPPF) (2019) defines a Travel Plan as:

"A long-term management strategy for an organisation or site that seeks to deliver sustainable transport objectives through action and is articulated in a document that is regularly reviewed."

1.2.2 The overarching aim of this TP is, therefore, to reduce the number of vehicle trips generated by the permitted development and in particular SOV travel, when compared to that which might have occurred without the implementation of the TP. This TP would be primarily aimed at residents, however the TP would also encourage visitors to travel by sustainable means.

1.2.3 The headline objectives of this TP are as follows:

- ensure all user groups are aware of the sustainable methods of travel that exist to access the development;
- to increase the proportion of travel by walking for all user groups,
- to increase the proportion of travel by cycling for all user groups; and,
- to increase the proportion of travel by public transport for all user groups.

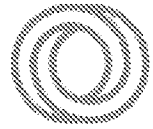

1.2.4 This TP would help to deliver a number of benefits, including:

- reducing localised traffic impact;
- reducing carbon emissions;
- delivering health benefits for all user groups as a result of increased walking and cycling;
- deliver a reduced demand for car parking, allowing development areas to be utilised for other uses such as accommodation space or landscaping;
- improve the viability of public transport routes; and,
- improve site safety as a result of fewer vehicle movements.

1.2.5 Over the course of the planning and design process the site layout has been carefully designed to ensure that sustainable and active modes of travel can be facilitated at the site. This has included designing:

- The footway and cycle network through the site to allow safe pedestrian access between the site and the existing pedestrian / cycle network;
- The internal road and footway / footpath network to allow for safe passage of non-motorised road users; and
- All residential properties to have sufficient space for cycle storage facilities.

1.2.6 In accordance with national and local government policy the site has been designed to promote sustainable, healthy lifestyle choices, and provide the means for residents to reduce SOV trips.

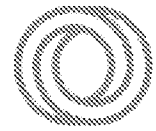

1.2.7 The proposed site layout, encompassing the dwellings which would be covered by this TP, is contained in **Appendix A**.

1.3 TP Structure

1.3.1 Following this introduction, the TP is structured as follows:

- **Section 2.0** details the existing transport infrastructure available in the vicinity of the site as well as the options for active travel (walking and cycling);
- **Section 3.0** sets out the TP's aims and objectives;
- **Section 4.0** presents the TP's targets;
- **Section 5.0** details the proposed measures and management strategies that would be implemented to support sustainable travel;
- **Section 6.0** provides details of the Travel Plan Co-ordinator (TPC) role including setting out the responsibilities of the TPC;
- **Section 7.0** details how the TP will be marketed and promoted to residents; and
- **Section 8.0** describes how the TP will be monitored.

2.0 SITE ACCESSIBILITY

2.1 *Site Context*

2.1.1 The site is located to the south of Ford Lane in the village of Yapton, 7km northeast of Bognor Regis and 6km northwest of Littlehampton.

2.1.2 As presented in **Figure 1**, the site is located on the northern extent of Yapton village, bounded by an open field to the east, while to the south is Orchard Business Park and the residential area of Yapton. North End Road and Ford Lane form the western and northern boundaries of the site respectively.

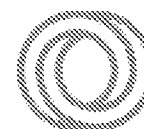

2.1.3 The site would, in accordance with the approved layout, be provided with one point of vehicular access in the form of a priority junction with Ford Lane at the northern boundary of the site. As part of the development proposals, pedestrian links would be created on the western boundary of the site with North End Road. These footway connections would facilitate direct access to the 'Ford Lane' and 'Maypole Lane' bus stops situated on North End Road. The public footpaths within the site would be retained, providing pedestrian access onto Church Lane to the south of the site. Refer to **Appendix A** for the proposed site plan.

2.2 *Sustainable Accessibility*

2.2.1 Within the National Travel Survey (2019) it has been identified that 31 minutes is the average length of a commuting trip. Of all commuting trips, 39 percent are made by non-car/van modes of transport, with walking making up 12 percent and local buses making up eight percent of trips.

2.2.2 At an average walking speed of three miles per hour (mph) or 80 metres (m) per minute, and a novice cycling speed of 10mph, walking and cycling commuting trips are likely to be made within 2.5km for walking, and eight km for cycling 'catchments'. Using these distances as a guide, the site is shown to be located within walking and cycling distances of a range of facilities. **Table 2.1** summarises the local facilities and amenities, whilst **Figure 2** illustrates the site's accessibility to local amenities and public transport facilities.

2.2.3 In calculating the journey time from the site to the amenities as detailed in **Table 2.1**, measurements for cycle trips were taken from the site's vehicular access with Yapton Lane along the local road network. For walking journeys with the end destination to the south of the site (such as the facilities located on or close to the B2233 Burndell Road), pedestrians would be able to make use of the public right of way within the site connecting to Church Lane to reach their destination.

**Table 2.1: Local Amenities and Facilities with Journey Times**

Amenity / Facility	Walking		Cycling	
	Distance	Journey Time	Distance	Journey Time
Bilsham Stores, Bilsham Road (0645-2100)	1.0km	12.5 mins	1.8km	6 mins

2.3 Walking and Cycling

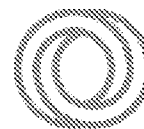

2.3.1 A review of the existing walking and cycling network in Yapton shows that there are several opportunities for access to the site via these modes. The condition of the existing infrastructure has also been taken into consideration. **Figure 2** illustrates the existing local public footpath and cycle network.

2.3.2 Footways are in place along both sides of most carriageways within the village. Street lighting is present, and the footway surfaces are in a good state of repair.

2.3.3 Public footpath 357 links through the centre of the site in a north-west to south-east alignment. To the south of the site, footpath 357 connects to footpath 358 which provides a link to Church Lane (at the northern edge of Yapton village centre). The village centre can then be accessed on foot via Church Lane and public footpath 360 which is located to the west of Yapton and Ford Village Hall.

2.3.4 As part of the permitted development footpath 357, which runs through the site, will be surfaced, and will be provided with connections to the proposal's footways. Furthermore the permitted development will upgrade footpath 358 (located on the eastern boundary of the site) to a 3.0m wide bridleway. These improvements to the local footpath network will help to encourage local trips to be undertaken on foot or by bicycle.

2.3.5 With regards to local cycle infrastructure there is a designated 'local' cycle route along the B2132 Bilsham Road, from the junction with the A259 Worms Lane, north through Yapton and then eastwards along the B2233 Burndell Road and Horsemere Green Lane. To the south of the site, along the A259 Grevatt's Lane, is National Cycle Route (NCR) 2 which connects the entire length of

the south coast and locally provides easy routes from Yapton to Bognor Regis to the west and Littlehampton to the east.

2.3.6 New / improved cycle facilities are in the process of being installed on the A259 between Bognor and Littlehampton. Existing local cycle routes and footway provision along the B2132 Bilsham Road would allow for easy connection to the A259 and serve to increase the sustainability of the site.

2.3.7 During the Covid-19 pandemic, funded through the Government's emergency Active Travel Fund, 'pop-up' cycle lanes were being installed on the A259 connecting Bognor Regis to Chichester. Whilst this cycle lane is temporary, scheduled to be available until the end of September 2020, some of the awarded funds would be used to determine whether the scheme could be adjusted or made permanent. There could therefore be further improved cycle facilities in proximity to the site in future associated with a shift in travel modes toward cycling. This possibility would be explored in future iterations of the TP, as part of the TP monitoring process.

2.4 Public Transport – Bus Services

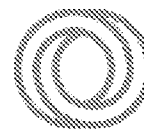

2.4.1 The nearest bus stops to the site are located on North End Road, within a 120m walk of the centre of the site. As mentioned previously the footways within the site would link onto the footway on North End Road, providing easy and direct access to bus stops. The bus stops and available routes are illustrated in **Figure 2**.

2.4.2 The bus stops on North End Road are served by bus routes 66 and 665. Route 66 provides regular services to Bognor Regis, and Route 665 is a school bus service.

2.4.3 The 'Sparks Corner' bus stops, situated a circa 1km walk (via Church Lane) to the south of the site in the centre of Yapton, are served by the Route 700 'Coastliner' service, with regular services to destinations along the south coast of England between Littlehampton and Chichester. **Table 2.2** summarises the services available, together with destinations served and bus frequencies. The latest route maps and timetables available have also been included in **Appendix B**.

Table 2.2: Existing Bus Services

Route No.	Route	Typical Frequency	First / Last Service
66	Bognor Regis – Westergate – Yapton – Westergate – Bognor Regis	Two Hourly (Mon-Sat)	07:35 / 18:08

Route No.	Route	Typical Frequency	First / Last Service
665	Littlehampton – Yapton - Westergate Six Villages Academy – Chichester High School	One per Day (Schooldays) 20 minutes	07:29 / 15:07 05:29 / 22:43 (M-F)
700	(Brighton - Worthing interchange at) Littlehampton – Yapton – Bognor Regis – North Bersted – Chichester (interchange for Havant – Portsmouth)	(Mon-Sat) 30 minutes (Sun)	06:09 / 22:43 (Sat) 07:19 / 21:04 (Sun)

2.4.4 As demonstrated, the existing local bus provision is good with a regular twenty-minute service to key destinations including Littlehampton, Bognor Regis and Chichester. This provision opens opportunities for travel to work and school by bus, and thus contributes to the sustainability of the site.

2.5 Public Transport – Rail Services

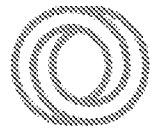

2.5.1 Barnham railway station is located within a 3km travel distance of the centre of the site, and Ford railway station is located slightly closer, within circa 2.9km of the centre of the site. Both stations are situated on the West Coastway Line between Brighton and Southampton. Barnham railway station is also the junction for the branch line to Bognor Regis.

2.5.2 Barnham station acts as an interchange between fast and slow services and accommodates trains serving destinations including London Victoria, Gatwick Airport, Brighton, Portsmouth and Southampton. Services are available every 20-30 minutes. **Table 2.3** summarises average journey times to key destinations available directly from Barnham station, whilst **Appendix B** contains relevant network and route maps.

Table 2.3: Rail Services from Barnham Station

Destination	Average Journey Time	Frequency
London Victoria via Horsham	1 hour 30 minutes	3tph
Gatwick Airport	1 hour	3tph
Brighton via Worthing	45 minutes	2tph
Portsmouth Harbour	40 – 45 minutes	2tph
Southampton Central	1 hour	2tph

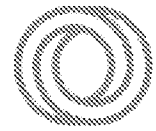

Tph = trains per hour (typical off-peak)

2.6 *Potential Barriers to Sustainable Travel*

2.6.1 It is recognised that walking, cycling and public transport may not be the most suitable travel choice for residents all the time. However, given the site's proximity to the centre of Yapton and local facilities, there is potential for many trips associated with the development to occur by sustainable modes.

2.6.2 For those journeys which are made by car there is scope for the TP to encourage residents to plan their journeys more carefully, resulting in more linked trips or off-peak travel as well as reducing SOV journeys. It is, therefore, important that the TP provides adequate and accurate information so that residents can make informed decisions regarding their travel choices.

3.0 AIMS AND OBJECTIVES

3.1.1 The aim and objectives of the TP are to help and encourage people, as individuals or within organisations, to make informed choices about their travel. To this end the TP's key objectives can be summarised as follows:

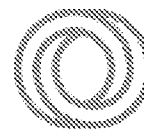

- Increase awareness of opportunities to travel by sustainable modes;
- Increase the proportion of residents at the development travelling by sustainable modes;
- Reducing local traffic congestion;
- Improving local air quality;
- Improving road safety; and
- Reducing noise pollution.

3.1.2 Residential travel planning tends to work differently to plans designed for school, employment and retail use, which can often have a greater influence on travel habits through physical restrictions such as reduced car parking provision at the destination.

3.1.3 This TP would be used to inform the preparation of travel information packs to be provided to residents. These packs can be excellent tools for informing residents of the travel choices available, and act as a mechanism for delivering travel incentives and additional information relating to sustainable travel modes.

3.1.4 The key issues that would form the objectives of this TP in the context of the development proposals are:

- **Objective 1:** To reduce the number of single occupancy vehicles (SOVs) travelling to and from the site;
- **Objective 2:** To increase the use of sustainable travel modes (walking, cycling and public transport);
- **Objective 3:** To encourage residents to choose modes of transport that will provide benefits to their health and wellbeing (walking and cycling); and
- **Objective 4:** To increase awareness of and encourage the use of available sustainable modes of transport.

4.0 TARGETS

4.1.1 To monitor whether the objectives set are being achieved, several targets relating to mode share would be set by the Travel Plan Co-ordinator (TPC). **Section 6.0** of this report presents a detailed description of the TPC role.

4.1.2 Targets should always be challenging yet realistic. For this TP, the targets set would be SMART: **S**pecific, **M**easurable, **A**chievable, **R**ealistic and **T**ime-Bound.

4.1.3 Although the final targets would be set once the baseline mode share is established via the initial travel surveys, estimates of mode share targets for journeys to work are presented in **Table 4.1**, and are based on those reported in the 2011 Census 'Travel to Work Data' for Yapton.

Table 4.1: SMART Targets Example – Journeys to Work

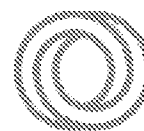

Mode	2011 Census Mode Share in Yapton	Year 1	Year 5
Train	3%	3% (+0%)	5% (+2%)
Bus, minibus or coach	3%	3% (+0%)	5% (+2%)
Motorcycle, scooter or moped	1%	1% (+0%)	1% (+0%)
Driving a car or van	71%	68% (-3%)	61% (-10%)
Passenger in a car or van	9%	10% (+1%)	11% (+2%)
Bicycle	3%	4% (+1%)	5% (+2%)
On foot	11%	12% (+1%)	13% (+2%)

Note: percentage change from original data

4.1.4 Using the information presented in **Table 4.1** as a guide, initial targets for the first and fifth years following completion of the development have been identified. These targets would be updated following the initial travel survey (to be completed following 50% occupation of the development). As can be seen in **Table 4.1**, at this stage it is proposed to reduce the percentage of car driver trips by 10% over the lifespan of the TP.

4.1.5 As discussed in **Section 8.0**, Multi-Modal Traffic Surveys would be undertaken at a time when at least 50% of the development is occupied, or within three months after initial occupation, whichever occurs first. These surveys would allow for site specific travel data to be established and as such site-specific targets to be set, which would enable the targets set out in **Table 4.1** to be updated.

4.1.6 The Transport Assessment submitted as part of the outline planning application provided estimates for the expected traffic generation of the site. **Table 4.2** summarises the 12-hour (0700-

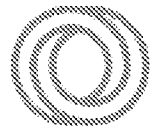

1900) weekday trip rates to which the TP targets would be applied and the 5-year target that the TP would seek to deliver.

Table 4.2: 12-hour Trip Rates and 5-Year 10% Reduction

	Trip Rate	Traffic Generation (100 Dwellings)	Traffic Generation Following 10% Targeted Reduction
Total Daily Trips	5.305 per dwelling	530 vehicles	477 vehicles

4.1.7 The overall objective of the TP would be to reduce the SOV trips at the site by a total of c.10% (53 vehicle movements over a typical day) over five-years, while increasing the share of other more sustainable travel modes.

5.0 MEASURES

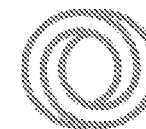

5.1.1 This section of the TP outlines measures to be implemented at the site to promote travel by modes other than the private car as well as reducing SOV trips.

5.1.2 The measures aim to reinforce the availability of other methods of travel, such as walking, cycling and public transport, and to inform new residents of the site about the availability and benefits of alternative modes, that they may not be aware of or may not have considered. The package of proposed measures includes:

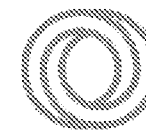

- Appointment of a 'Travel Plan Co-ordinator';
- Promotion of walking and cycling;
- Promotion of bus services;
- Promotion of car sharing;
- Provision of travel information;
- Provision of financial incentives to encourage sustainable travel; and
- Provision to homeowners of 'Travel Information Packs'.

5.1.3 To achieve the targets and subsequently the objectives of the TP, several measures would be implemented. Although a selection of actions and measures are suggested at this stage, the final list would be determined once the initial travel surveys have been completed and the monitoring report submitted to WSCC. The potential measures are set out in **Table 5.1**.

5.1.4 Most of the measures identified are deliverable within the role of the TPC, the budget of which would be agreed and set at reserved matters stage when a TPC has been appointed. Other initial start-up costs would include the design and printing of 'travel packs' for each dwelling, the cost of which is to be confirmed.

6.0 TRAVEL PLAN CO-ORDINATOR

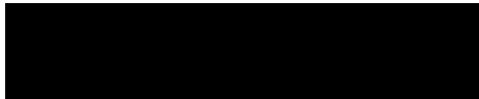

6.1.1 The TPC role is to be undertaken by an appointed individual from a specialist transport / travel planning consultancy under the auspices of the developer.

6.1.2 Redrow Homes have yet to appoint a TPC for the ongoing five-year monitoring of the TP, however, the appointed organisation / individual would be confirmed prior to first occupation. The interim TPC's contact details are presented below. All relevant parties would be notified if / when there are any changes to the role of TPC.

Company: Redrow Homes Limited

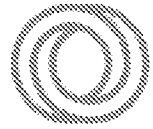

Company Address: Redrow House, Unit 1, Faraday Office Park, Rankine Road, Basingstoke, Hampshire, RG24 8QD

Key Contact: Mike Dodd

6.1.3 The TPC's broad responsibilities would be to ensure the efficient and effective implementation and on-going monitoring of the TP from first occupation for a minimum term of five-years. The TPC's key responsibilities are summarised below:

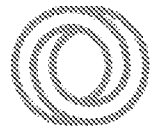

- Oversee the fulfilment of the TPC role in compliance with the agreed TP;
- Assist in the preparation and maintenance of up-to-date 'Travel Information Packs' for new residents, and ensure they are delivered effectively;
- Monitor and co-ordinate the implementation of the TP measures, including travel and traffic surveys;
- Liaise with ADC and WSCC in respect of the implementation, operation and management of the agreed TP;
- Review the periodic TP performance monitoring process; and
- Manage the fulfilment of the client's Section 106 travel planning obligations.

7.0 MARKETING AND PROMOTION

7.1.1 To promote the TP and to engage fully with residents several mediums would be used, including:

- Travel Information Pack: a physical and electronic document that would contain a variety of information including, bus / rail timetables, walking and cycling maps, TPC contact details, travel vouchers etc;
- Residents Forum: the TPC would promote and facilitate setting up a resident's forum / steering group, if there is enough interest, to allow for on-going feedback and issues to be reported throughout the year;
- The TPC would be responsible for promoting events such as Walk to School Week, National Bike Week, European Mobility Week, National Lift-share Week, International Walk to School Month and Road Safety Week;
- Community Notice Board: This would be located in a communal area within the development. This board would be updated with travel-related promotions, events and other information; and
- Personalised Travel Planning: contact details of the TPC would be provided within the Travel Information Pack, who can provide advice and assistance to residents regards travel and who would encourage sustainable travel choices to be made.

8.0 MONITORING

8.1 *Travel Plan Monitoring*

8.1.1 The success of the TP would rely on the regular monitoring of travel patterns and habits of residents' of the site. A clear record of residents' travel choices, along with any issues that may arise would be kept. A target response rate of 35% (35 out of the 100 households) for the travel survey would be aimed for to ensure a suitable sample size is gathered.

8.1.2 To ensure a high rate of survey response, various methods could be employed, including social media, door to door surveys, email and by post. The TPC would also investigate the potential of providing a prize-draw for residents who partake in the travel survey to help ensure a suitable number of results are collected.

8.1.3 Multi-Modal 'TRICS SAM' compliant surveys would be undertaken as part of the monitoring process when at least 50% of the development is occupied or within three months of first occupation (whichever is sooner). Subsequent travel surveys would be conducted in the first, third and fifth year of the TP period. These would be conducted alongside an annual travel survey questionnaire.

8.1.4 It may be that incentives are needed to encourage residents to participate in the questionnaire surveys. A review of the success of this method would be needed over the lifetime of the TP to ensure accurate data can be gathered at each TP review.

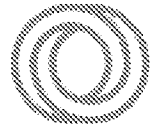

8.1.5 A copy of an example questionnaire that accords with the criteria set out by WSCC, and has previously been accepted by WSCC is included in **Appendix C**.

8.1.6 The TPC would submit an annual monitoring report to WSCC, within three months of the annual travel surveys being completed.

8.2 *Remedial Measures*

8.2.1 The monitoring reports would provide an indication of the success or shortfall of the TP to promote a reduction in SOV journeys.

8.2.2 At this early stage, it is unknown if additional measures to those presented in this TP are required, however, the TPC would engage fully with WSCC to determine the most appropriate course of action if additional measures are required. Some additional measures that could be implemented are:

- Increased intensity in the promotion of walking, cycling and public transport;
- Additional exclusive offers for residents;
- Provision of no-cost bicycle repair services e.g. 'bike doctor';
- Rewards / prizes for reducing overall household SOV mileage; and
- An additional round of £50 travel vouchers in the fifth year of the TP if the targets have not been fully met.

8.3 Ongoing Management

8.3.1 Following the initial appointment of the TPC and implementation of the TP, the role would continue for a minimum of five years. Following this period, the TP would be reviewed and a final report submitted to WSCC outlining the successes, failures and potential areas for improvement that the development could benefit from.

APPENDIX C

Example Residential Travel Survey Questionnaire

EXAMPLE RESIDENTIAL TRAVEL SURVEY

INTRODUCTION

The survey is being undertaken as part of the monitoring process for the Residential Travel Plan. This Travel Plan aims to improve access to your housing development and ensure that residents are aware of all travel options available to them.

Travel plans are now a legal requirement for many new developments. This Travel Plan was submitted as part of the planning application for the housing development you live on.

The Travel Plan includes many travel-related targets which must be met within five years. All travel plans are monitored for five years to assess what progress has been made towards reaching their targets. This is done using a standard method to allow for easy comparison of results across West Sussex County Council (WSCC).

The results of the survey will be reviewed by the site's management, local borough officers and WSCC Highways. It will identify what local resident's travel needs are, ensuring you have a variety of travel modes to choose from, as well as all the support you need to choose the ones which are most convenient for you.

Your completion of the survey is important to us. To say thank you for participating, **[enter information on incentive]**.

Thank-you for your participation.
