

**Proposed Extensions to
3 & 3a Cherry Avenue Yapton.**

Lidsey foul water catchment statement.

The site falls within the LFWCA.

The existing properties are both already connected the foul water drainage system, no new connections are required and proposals will not increase the amount of effluent entering the system from the properties above existing levels.

No stormwater connections are to be made to the foul sewer, rainwater will be disposed of via infiltration with soakaway designed to suit infiltration rates following site investigation
