I am very concerned that the very recent building on this application has now been submitted for change of use. The recently finished building hasnt been used to date so a change of use

application so fast is ridiculous and suspicious. The change of use clearly means a great deal of increased traffic along a one vehicle unmade track which will not only deteriorate the track but will create immense safety risks for the increased footfall along this track of walkers, cyclists and joggers, wishing to use this rural area for outside activities.

Please take serious consideration to refuse this application as i am, along with other villagers, very very concerned about the safety of the great many people enjoying this rural track to access open space.

Steve Anthony
