Hi David,

Thank you for your email and providing a revised CEMP.

I can confirm that the revised draft of the CEMP takes account of the Highway Authority comments dated 17th Feb 2022. The applicant has confirmed that they shall implement road sweepers, that they shall invite a representative of the WSCC's Area Highway Office to attend the highway condition survey, that they shall avoid, where practical, deliveries in the traditional peak hours and they have amended the construction traffic route so all vehicles enter and leave the site via the Comet Corner junction and therefore reduce the extent HGVs shall travel on streets of a residential nature.

These amendments are welcomed by the Highway Authority and they have no objections to the discharge of the condition.

Regards

Steven Shaw BA (Hons) MSc MCIHT
