Dear Pete,

Re Y/149/21/DOC, Martyn has asked if it would be possible for someone to take a photo of the sample panel in situ (i.e. propped up against the existing wall) so that he can easily compare it. Could this also be done in good light conditions (I accept this is weather dependant). He is finding it hard to compare the photo of the panel versus the photo of the existing wall particularly given that the former was taken indoors and the latter is dark.

Simon.

Dear Pete,

The NMA still looks fine to me.

I have reviewed Y/149/21/DOC and I am waiting on a comment from the Conservation Officer, Martyn White who I have just chased for a response.

Simon.
