Comment from Greenspace

The information submitted within the Arbtech report 02/03/17 provides proposals of a suitable mix of native screen planting mix which would be both suitable for type and location. We would however require that this information is proved in plan form to identify the actual plant numbers being proposed, their locations plotted in plan form and also detail of size at time of planting. There is also some reference to either/or in relation to planting method which needs to be confirmed.

I would therefore not recommend the discharge of conditions 05 & 06 of application Y/15/17/DOC imposed under Y/64/16/PL until this plan form information has been submitted and approved.
