Hi Simon

Thank you very much for your update.

Please see attached Noise Assessment for Application Y/177/21/PL, which concludes the electricity sub-station would have no adverse impact on the adjacent residential occupiers. Hopefully this is sufficient, further to your internal consultations, to avoid a pre-commencement condition.

With regard to the Conservation Officer comments on the other application (Y/176/21/PL) I am waiting on instruction from my client as to how we wish to proceed.

Kind regards

Ian
