Subject: RE: Planning Consultation on: Y/184/21/DOC

Hi Lisa,

Thanks for this. I have just had WSCC Comments in respect of the CMP (cond 5) stating that:

Condition 5 requires details upon (but not limited to):
the anticipated number, frequency and types of vehicles used during construction;
the method of access and routing of vehicles during construction;

The submitted CEMP does not include details on these issues however does highlight a traffic management plan would be produced. This should be provided for assessment.

Please respond by 09/02.

Simon
