

This architectural elevation drawing shows a two-story house with a gabled roof. The exterior walls are finished with brickwork. The second story features two large, multi-paned windows. The first story has a central entrance flanked by two decorative columns, each topped with a pediment. To the left and right of the entrance are smaller windows. The drawing is a black and white line art representation.

This architectural drawing shows the exterior elevation of a building. The main structure is a brick wall with a gabled roof. On the right side, there is a chimney with a tiled roof. The drawing is a black and white line art representation.

A detailed 3D perspective rendering of a two-story brick house. The house features a gabled roof with a wide overhang. The exterior is finished with a brick pattern. On the second floor, there are two large, multi-paned windows. The first floor includes a central entrance with a small, gabled porch supported by columns, flanked by two windows. To the left of the entrance is another window with a decorative pediment. The house is set on a dark grey base, and the background is plain white.
