

A detailed 3D perspective rendering of a two-story brick house. The house features a steep gabled roof with a wide overhang. The exterior is constructed from light-colored bricks with dark mortar lines. On the left side, there is a single window on the second floor and a larger window on the first floor. The right side of the house has a series of four windows on the second floor and two windows on the first floor, each with a small decorative awning. A central vertical element, possibly a chimney or a decorative pillar, runs up the side of the house. The house is set on a dark, flat ground plane.
